

THE KINGS AND QUEENS OF HEARST HIGH SCHOOL

A PHOTO ESSAY by Ernie Bies Updated June 10, 2020

The Hearst High School began a tradition of crowning a King and Queen in 1951, the year the new school building was opened. Winners were chosen by popular vote by the entire student population. Emmanuel Charbonneau presided over the first ceremony crowning them with paper crowns. Olga Bies and André Gagné were the first Queen and King.

Elaborate new crowns were made in 1953, modeled after those used in the 1953 coronation of Queen Elizabeth II. Annie Bies and Vola Guty were voted most popular that year and were to keep the crowns but gave them back so they could be used every year after that until the practice of naming Queens and Kings was ended in 1964.

The Queen's crown was also used to crown Clemence Ruel as Miss Lumberking (Fastball) in 1962, with Maggie Timmerman and Mariette Carrier attending.

History of Our School (from the HHS website)

From 1942 to 1968, Hearst High School was the only public high school in Hearst. There were 4 classrooms on the first floor, and a gymnasium and 2 classrooms in the basement (this is the middle section of what is now École secondaire catholique de Hearst, on 10th st.). In 1964, a science classroom and an additional classroom were added to the South end of the building.

In 1968, the government amended the Education Act to allow French language schools. Another addition was built to accommodate the community's francophone students, and the school becomes École secondaire Hearst High School.

In 1987, the government allows catholic high schools, and in 1988 a liaison committee is created, equally represented by 4 representatives from the Hearst Board of Education and the Conseil des écoles séparées catholiques du district de Hearst, to continue offering a community high school. This also marks the beginning of having 2 different principals at the school, one for Hearst High School and one for École secondaire de Hearst.

In 1997, Clayton Brown Public School and Hearst High School now have one principal who looks after both schools, which are across the street from each other.

In 1998, school boards are amalgamated in Ontario. Hearst High School becomes part of District School Board Ontario North East (DSB1) and l'École secondaire de Hearst is now part of the Conseil scolaire catholique du district des Grandes Rivières (CSCDGR).

In 2001, a community vision forum was held to ask the community for input into the future of Hearst High School and English Language education in Hearst. One of the proposals was to create a JK-12 school for English-language students in order to ensure that the English-Language community remains in control of its choices for its students. The results from the community forum suggested that such a model encourages a sense of pride, ownership and belonging.

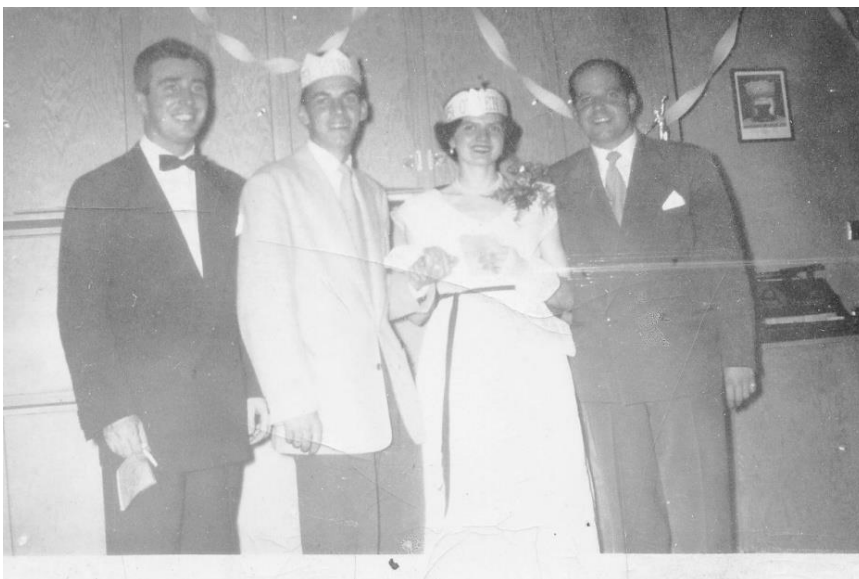

In 2004, a new school was built in Constance Lake, and First Nations students living on the reserve now attend the Mamawmatawa Holistic Education Center.

Laurent Vaillancourt provided the following information regarding other high schools in Hearst: *"There were also private schools that offered a high school curriculum, namely the Académie St-Joseph a private girl's school, circa 1958 - 1968 and the Séminaire/Collège de Hearst a private school for boys from 1954 -1969. The latter became l'Université de Hearst, first as Collège de Hearst, then in 1972 as Collège universitaire de Hearst and of 1997 as Université de Hearst."*
